## Dashboard / My courses / MA-224-G 25H / Tests / Test 1 (topics 1-3: Introduction, Concepts, Induction, Recursion, Grammars).

Status	Finished
Started	Thursday, 11 September 2025, 12:00 PM
Completed	Thursday, 11 September 2025, 12:15 PM
Duration	14 mins 57 secs
Marks	2.30/3.00
Grade	<b>2.30</b> out of 3.00 ( <b>76.67</b> %)

Information

## Information

This page contains all the problems for this test. The very last problem asks you to contact the person in charge of the exam and tell him or her the 4-digit key given in the problem text. In return you will be given a 5-digit signing code which you must give as the answer to the problem.

This problem does not count towards the final score, but tests missing this code will not count towards the final grade.

The following rules apply:

- Total time allowed: 30 minutes. The test will automatically close if time runs out.
- UiA's usual rules in regards to cheating on exams apply.

Question **1**Partially correct

Mark 0.50 out of 1.00

What is the contraposition of the following formula?

$$(p \Rightarrow \neg q) \Longrightarrow (s \land \neg t)$$

Hints:

$$\neg (A \land B) = \neg A \lor \neg B$$

$$\neg (A \lor B) = \neg A \land \neg B$$

$$A \implies B = \neg A \lor B$$

Select the precedent and the antecedent of the implication.

Question 2				
Correct				
Mark 1.00 out of 1.00				

Compute the least common multiple (lcm) and the greatest common divisor (gcd) of the numbers 48 and 576.

lcm: 576

Your last answer was interpreted as follows:

576

gcd: 48

Your last answer was interpreted as follows:

48

Question **3**Partially correct
Mark 0.80 out of 1.00

Consider the following EBNF grammar.  $R \rightarrow p \mid p \mid s p$  $J \rightarrow O \mid O \cup J \mid \epsilon$  $\mathsf{K} \to \mathsf{L} \, | \, \mathsf{L} \, \mathsf{x} \, \mathsf{K} \, | \, \epsilon$ L → p|LuL|ε  $O \rightarrow y \mid y \mid O \mid y \mid$ Check the ambiguity of the grammar. The grammar is ambiguous with the start symbol R: False \$ The grammar is ambiguous with the start symbol J: True \$ The grammar is ambiguous with the start symbol K: True \$ The grammar is ambiguous with the start symbol L: \$ True The grammar is ambiguous with the start symbol O: False \$

Question 4
Correct
Mark 0.00 out of 0.00

## Signing code

Before closing the test you must answer this problem with a signing code given to you by the person in charge of the test.

Tests missing this signing code will be ignored and will not count towards the final score.

Key: 402

Signing code: 23952

Your last answer was interpreted as follows:

23952
