| Information | |

Information

This page contains all the problems for this test. The very last problem asks you to contact the person in charge of the exam and tell him or her the 4-digit key given in the problem text. In return you will be given a 5-digit signing code which you must give as the answer to the problem.

This problem does not count towards the final score, but tests missing this code will not count towards the final grade.

The following rules apply:

- Total time allowed: 30 minutes. The test will automatically close if time runs out.
- UiA's usual rules in regards to cheating on exams apply.

Question 1
Correct
Mark 1.00 out of 1.00

Consider the set

$$S = \left\{4, 5, \left\{4\right\}, \left\{4, 5\right\}, \left\{5\right\}, \left\{\left\{4\right\}\right\}, \left\{\left\{5\right\}\right\}\right\}.$$

Mark all true statements.

- 5 ⊆ S
- √ 5 ∈ S
- 4 ⊆ S
- √ (5) ⊆ S
- √ 4 ∈ S
- $\mathbb{Z} \{\{5\}\} \subseteq S$
- √ (4) ∈ S
- None of the above

Question **2**Correct
Mark 1.00 out of 1.00

Translate the following numbers into the other bases and provide the intermediate division results (in base 10).

$$3394_{10} = 4581$$
 $_{9}$ with $[3394,377,41,4,0]$ $3394_{10} = 706$ $_{22}$ with $[3394,154,7,0]$ $_{384_{14}} = 1000122$ $_{3}$ with $[746,248,82,27,9,3,1,0]$

Example:

 $1234_{10} = 86A_{12}$ with [1234, 102, 8, 0]

Your last answer was interpreted as follows:

4581

Your last answer was interpreted as follows:

[3394, 377, 41, 4, 0]

Your last answer was interpreted as follows:

706

Your last answer was interpreted as follows:

[3394, 154, 7, 0]

Your last answer was interpreted as follows:

1000122

Your last answer was interpreted as follows:

[746, 248, 82, 27, 9, 3, 1, 0]

| Question 3 | | |
|---------------------------------------------------|-------|--|
| Partially correct | | |
| Mark 0.40 out of 1.00 | | |
| | | |
| Consider the following EBNF grammar. | | |
| T → E p E p | | |
| $F \rightarrow r \mid r \mid F$ | | |
| $O \rightarrow E \mid E \neq E$ | | |
| $E \rightarrow r \mid u r \mid u \mid$ | | |
| $U \rightarrow b \mid k \cup [k] \mid \epsilon$ | | |
| | | |
| Check the ambiguity of the grammar. | | |
| The grammar is ambiguous with the start symbol T: | True | |
| The grammar is ambiguous with the start symbol F: | False | |
| | | |
| The grammar is ambiguous with the start symbol O: | True | |
| The grammar is ambiguous with the start symbol E: | False | |
| The grammar is ambiguous with the start symbol U: | False | |
| | | |
| | | |
| | | |
| Question 4 | | |
| Correct | | |
| Mark 0.00 out of 0.00 | | |

Before closing the test you must answer this problem with a signing code given to you by the person in charge of the test.

Tests missing this signing code will be ignored and will not count towards the final score.

 ${\rm Key:}\ 109$

Signing code: 42860

Your last answer was interpreted as follows:

42860
